2010 Testimonials

"What an incredible program you are running!!! I have worked with many Executive Directors and I don't know of any that have packed so much actual meat into their sessions. Keep up the good work. I am going to forward your message to the Leadership Association as an example of program excellence in action." ~ Craig Rider, The Rider Group

"The importance of Leadership Huntington in our town and the larger Long Island community is demonstrated by the actions and activities of our former graduates. The Leadership Huntington Foundation's work over the years has spawned day care centers, a health clinic, Town and Village Board Members and smart growth and community visioning throughout Long Island. We are making real change in our communities, and H2M is proud to support and to be associated with such an important organization." ~ Robert M. Scheiner, H2M Group

"Whether you work with the Huntington Township Chamber of Commerce, the Huntington Arts Council or any other group that serves your Community, Leadership Huntington builds the foundation for bringing your strongest talents to the area in our community where it is needed the most. Talent, trust, instinct, boldness and effort are instilled in this program. Those in this class, as in classes before it and classes still to come, are very ready to climb and bring their neighbors to a higher level." ~ James Kelly, JVKelly Group

"Nurturing my passion for helping to build functional teams and collaborative communities, my experience as Director of LH has served as the catalyst for me to help create the regional leadership program at Molloy College. The Energeia Partnership is the answer to a regional need, LH is a best practice for community leadership on Long Island and in the country...Our combined impact is in its infancy, and the legacy of our efforts will live on in ways that cannot be measured or weighed right now." ~ Nancy Engelhardt, Director of the Energeia Partnership

"Leadership Huntington is a the only program on Long Island that pulls together folks from all segments of the community to gain skills, understand the Town and learn from each other with any level of depth. My experience at Leadership connected me with an eclectic group of community and business leaders, historic preservationists, human service and government professionals along with artists, poets and musicians. ~ Eric Alexander, Vision Long Island

While it would be wonderful to bask in the glory of what we did, I'm even more delighted to see you up and coming...It's much harder today than it was for us, but you guys are moving forward. That's good, because we can't turn back the clock." ~ Arthur Goldstein, Esq.
